

2016 ROADMAP OF NEED

The Roadmap of Need is an in-depth needs assessment for North Carolina youth, produced annually by the Public School Forum of North Carolina's Center for Afterschool Programs (NC CAP).

In 2010, NC CAP created the initial Roadmap, which included 10 indicators related to afterschool programs, health care, job programs, and other key initiatives for youth success. NC CAP expanded the Roadmap in 2013 to include **20 indicators of wellness** across four domains: **health, youth behavior and safety, education, and economic development**. Over the past three years, the revised Roadmap has been a key resource for afterschool providers in communicating with policymakers, funders, and citizens about the importance of their services, and to target areas for increased investment. School administrators, central office staff, nonprofits, community leaders, and parent advocates also use the Roadmap to demonstrate to others the needs faced by their communities. Public education advocates have brought Roadmap data to the attention of school board members, county commissioners, and members of the General Assembly in order to inform their efforts to create state and local policies that address significant community needs.

This publication examines 20 indicators of wellness in counties across North Carolina. These indicators contain relevant annual data demonstrating need across North Carolina, with each indicator being used to identify where young people are most at risk of not succeeding, both in and out of school. All data points selected are updated annually, with the hope that this publication, along with future Roadmaps, can create a longitudinal data set for county comparison. In addition to county-specific data on each indicator, the Roadmap provides rankings for each indicator and domain, as well as an overall ranking of all 100 counties that takes into account the data on all 20 indicators.

A note on our methodology: all indicators are weighted equally in the calculations, but in reality some of these indicators may have a stronger influence on youth success than others. Additionally, it is important to recognize that other indicators could have been used. In order to come up with these indicators, we consulted with experts in each of the four domains, including those from the corresponding state agency for each domain, using their input to guide decisions about which data to include. Had different indicators been chosen, such as using the number of students that qualify for free and reduced priced lunch instead of median household income, the results would have varied slightly; however, the counties at the top and the bottom of the rankings would likely have remained the same.

Looking at the data, a troubling trend continues. Our state is now "two North Carolinas" – one populated by young people living in areas that are attracting jobs and industry, areas that are providing a quality educational experience both in and out of school, and promoting healthy activities. The other is populated by young people living in communities in a state of economic decline, areas with struggling schools, few out-of-school opportunities, and limited options around healthy activities. At first glance, the Roadmap points to counties in eastern North Carolina as those most at risk. However, the nature of countywide indicators often masks the variation occurring within counties, particularly our most populous urban counties where neighborhoods that alone would fare well on the Roadmap indicators exist in close proximity to neighborhoods with many young people in need.

The Public School Forum and NC CAP will continue to advocate for public schools, expanded learning opportunities, and healthy, economically vital North Carolina communities. However, citizens and community organizations are in the best position to advocate for their schools and communities. The Public School Forum hopes that the Roadmap will continue to serve as a resource for policymakers, business and community leaders, grant writers, researchers, and educators. It is up to all of us, as North Carolina citizens, to use the data provided by the Roadmap to work thoughtfully and collaboratively to target resources most effectively to ensure that all North Carolina youth have the opportunity to succeed.

HOW THE CATEGORY RANKINGS WERE CALCULATED

In order to calculate the rankings, each county was given a rank of 1-100, either from lowest to highest or highest to lowest, depending on each indicator. For example, teen pregnancy rates were ordered lowest to highest, while physicians per 10,000 population numbers were ordered highest to lowest. Once we had rankings for all the indicators in the category, the indicator rankings were averaged for each county, giving an average of all health rankings. The counties were then ranked by this average, providing an Overall Health Ranking. This procedure was repeated for the categories of Youth Behavior & Safety, Education, and Economic Development.

HEALTH INDICATORS

Teen Pregnancy

The teen pregnancy rate represents the 2009-2013 five-year average of the number of pregnancies per 1,000 females ages 15-19.

Number of Physicians

The number of physicians represents the number of doctors of medicine or osteopathy licensed with the North Carolina Medical Board per 10,000 total population in 2013.

Child Fatality

The child fatality rate is the number of child deaths per 10,000 children under age 18 in 2013. This number includes infant mortalities.

Child Food Insecurity

The food insecurity rate reflects the percentage of children under age 18 living in food insecure households in 2013. These numbers reflect the USDA's definition for household food insecurity – the household-level economic and social condition of limited or uncertain access to adequate food.

Child Obesity

The child obesity percentage represents the percentage of children ages 2-4 considered obese participating in the Special Supplemental Nutrition Program for Women, Infants and Children (WIC) in 2012. This data point was unavailable for 2013, but will be available for future years according to the North Carolina Department of Health & Human Services.

NORTH CAROLINA DATA

Teen Pregnancy Rate per 1,000:	44.90	Child Food Insecurity Percentage:	26.10%
Number of Physicians per 10,000:	22.73	Child Obesity Percentage:	14.50%
Child Fatality Rate per 10,000:	5.64

YOUTH BEHAVIOR & SAFETY INDICATORS

Juvenile Delinquency

The juvenile delinquency rate is defined as the number of delinquent complaints received by court services offices per 1,000 youth ages 6-15 in 2014.

Short-Term Suspensions

The short-term suspension rate reflects the number of suspensions for 10 days or less per 1,000 school-age students in the 2013-2014 school year. The numbers include in-school and out-of-school suspensions from the 115 Local Education Agencies (LEAs) in North Carolina.

Juvenile Detention Admissions

The juvenile detention admissions rate represents the number of times individual youth were placed in detention per 1,000 youth ages 6-17 in 2014.

Children in DSS Custody

The children in DSS custody rate represents the number of children who were in Division of Social Services (DSS) custody at some point during 2014 per 1,000 youth under age 18. Children who entered into DSS custody more than once during 2014 are counted only once in this data set.

Child Abuse and Neglect

The confirmed child abuse and neglect rate represents the number of children with confirmed cases of child abuse and neglect per 1,000 youth under age 18 in 2014. Confirmed cases include those categorized as any of the following: abuse and neglect, abuse, neglect, dependency, and services needed.

NORTH CAROLINA DATA

Juvenile Delinquency Rate per 1,000:	22.52	Children in DSS Custody Rate per 1,000:	6.32
Short-Term Suspension Rate per 1,000:	132.89	Child Abuse & Neglect Rate per 1,000:	10.39
Juvenile Detention Admissions Rate per 1,000:	2.08

EDUCATION INDICATORS

Graduation Rate

The cohort graduation rate reports the graduation rate for the 4-year cohort entering 9th grade in 2010-2011 and graduating in 2013-2014 or earlier.

3rd Grade Reading Proficiency

The third grade reading proficiency represents the percentage of students' scores at or above grade level proficiency on the third grade reading end-of-grade (EOG) test in 2013-2014.

Math I Proficiency

The Math I proficiency indicator represents the percentage of students' scores at or above grade level proficiency on the Math I end-of-course (EOC) test in 2013-2014.

ACT Composite Score

The ACT composite score indicator represents the average composite ACT score for 11th grade students in North Carolina's 115 LEAs in 2013-2014.

Percentage of AMO Targets Met

The percentage of Annual Measurable Objectives (AMO) targets represent the number of AMO targets met in each school within each of North Carolina's 115 LEAs in 2013-2014. AMO targets are identified for each federally reported subgroup for reading and mathematics.

NORTH CAROLINA DATA

Graduation Rate:	83.90	ACT Composite Score:	18.50
3rd Grade Reading EOG Percent Proficiency:	60.20%	Percent of AMO Targets Met:	55.20%
Math I EOC Percent Proficiency:	60.00%

ECONOMIC DEVELOPMENT INDICATORS

Median Household Income

Median household income reports the exact middle of the household income distribution in each county in 2014. One-half of all households in each county have an income below the median income, and one-half have incomes above it.

Child Poverty

The child poverty rate reflects the percentage of children under age 18 living at or below the poverty level in 2014.

Unemployment Rate

The unemployment rate is the number of unemployed individuals as a percentage of the labor force (the sum of the employed and unemployed individuals) in 2014. Individuals classified as unemployed are those who are without work, available for work, and actively seeking work.

Adults with Bachelor's Degree

Adults with Bachelor's Degrees represents the percentage of the population 25 years of age and older who have obtained a bachelor's degree or higher during the five-year average of 2010-2014.

Single Parent Households

Single parent households represent the 2009-2013 five-year average of the percentage of children living in single-parent households out of all children living in family households.

NORTH CAROLINA DATA

HOW THE OVERALL RANKINGS WERE CALCULATED

Adults with Bachelor's Degrees

American Community Survey 5-year estimates (2010-2014), Table S1501. Available at http://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ACS_14_5YR_S1501&prodType=table.

In order to calculate the overall rankings, we used a method very similar to the method used to calculate the category ranking. As for the category rankings, each county was given a rank of 1-100, either from lowest to highest or highest to lowest, depending on the indicator. For example, teen pregnancy rates were ordered lowest to highest, while physicians per 10,000 population numbers were ordered highest to lowest. Once we had rankings for all the indicators in the category, the indicator rankings were averaged for each county, giving an average of all 20 rankings. The counties were then ranked by this average, providing an overall ranking.

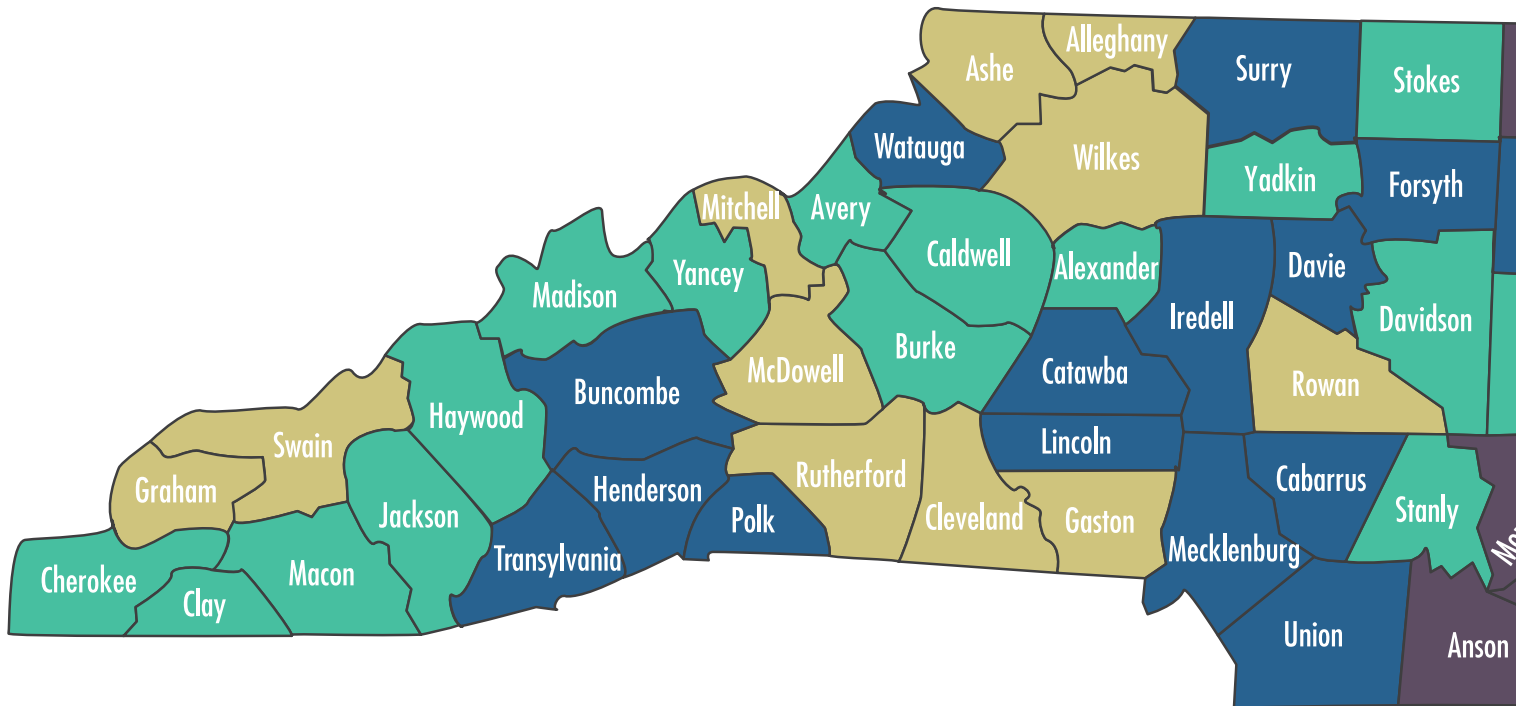

Single-Parent Households

Robert Wood Johnson Foundation's 2015 County Health Rankings. Available at <http://www.countyhealthrankings.org/rankings/data/nc>.

A GRAPHIC LOOK AT COUNTIES IN NEED

The map below depicts a disturbing trend. The illustration divides counties into four quartiles ranging from those that ranked highest on the Roadmap's needs assessment to those that ranked the lowest. Looking at the map, the concern about two North Carolinas is unmistakable.

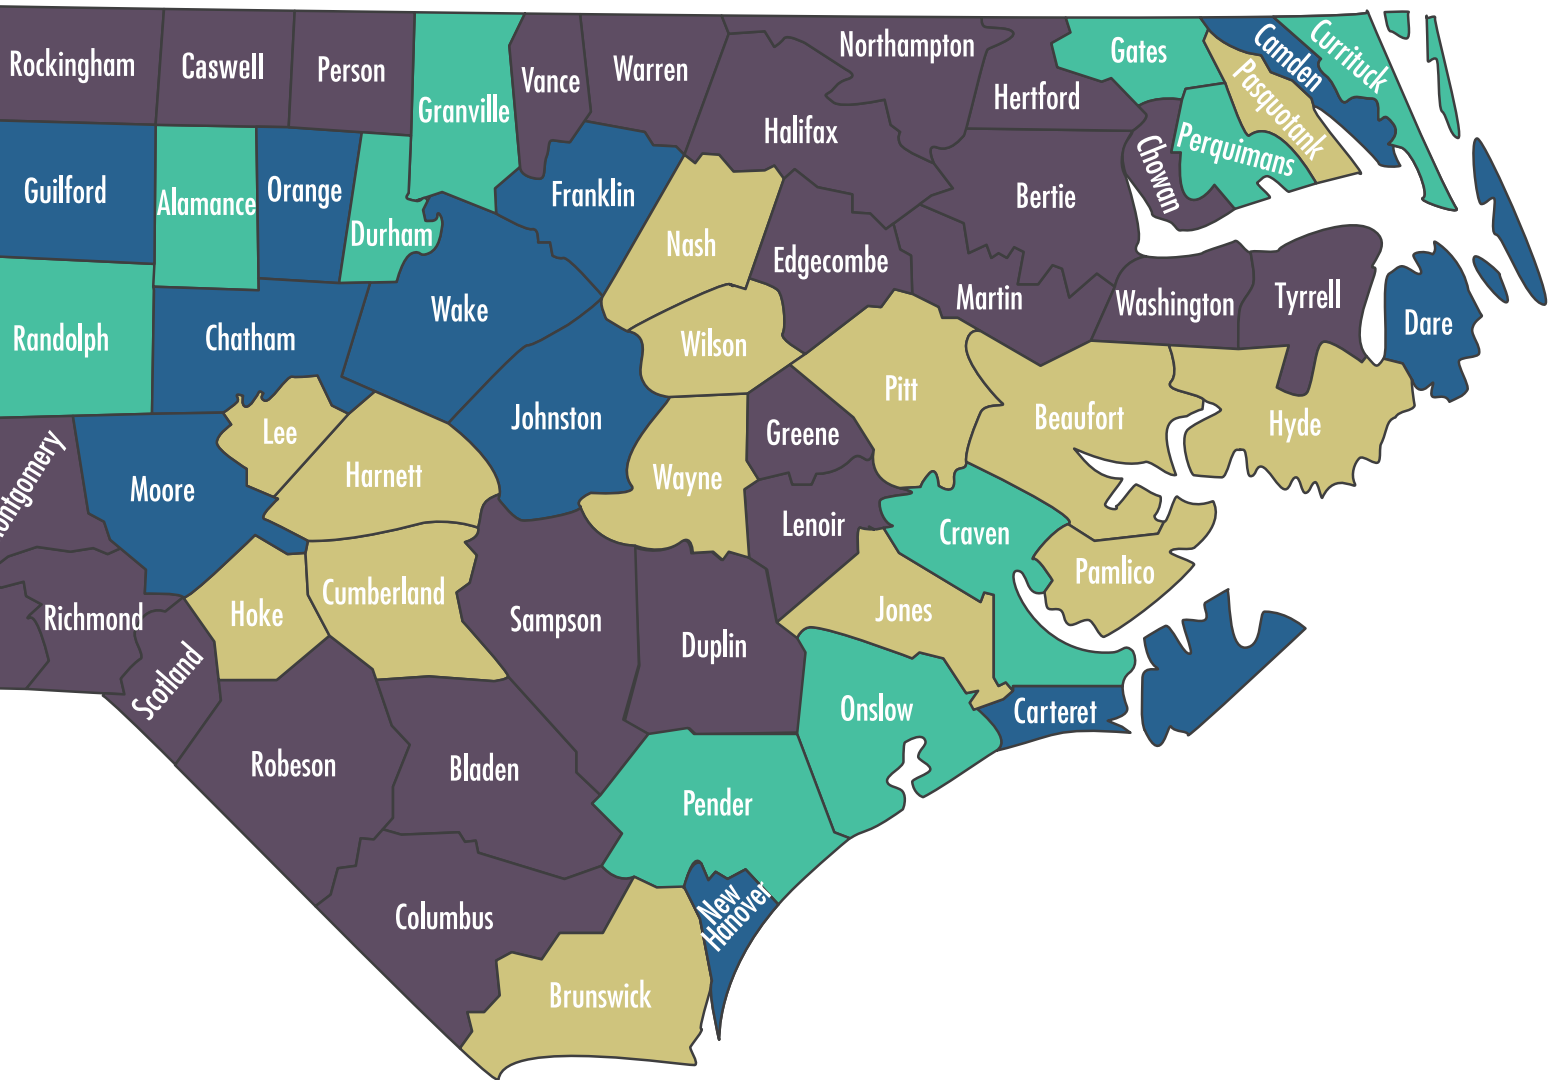

Quartile I
COUNTIES RANKED 1-25

Quartile III
COUNTIES RANKED 51-75

Quartile II
COUNTIES RANKED 26-50

Quartile IV
COUNTIES RANKED 76-100

About the Public School Forum of North Carolina

Since 1986, the Public School Forum of North Carolina has been an indispensable and nonpartisan champion of better schools and the most trusted source in the state for research and analysis on vital education issues. We bring together leaders from business, education and government to study education issues, develop ideas, seek consensus, and ultimately inform and shape education policy. We do that through research, policy work, innovative programs, advocacy, and continuing education for educators and policymakers.

About the North Carolina Center for Afterschool Programs (NC CAP)

The North Carolina Center for Afterschool Programs is a statewide after-school and expanded learning network dedicated to increasing access to high quality after-school and expanded learning programs for all children and youth in North Carolina, helping them to succeed in and out of school.

The following are the foci of the North Carolina Center for Afterschool Programs:

- Research and best practices in the afterschool and expanded learning environment
- Convener of stakeholders (national, state, and local)
- High quality professional development and technical support
- Core Competencies for Afterschool and Expanded Learning Programs
